All people in U.K. are covered

1140 1) Explain the case study below and answer the questions that follow it.

2) A new teacher was teaching in a class where learners with and without learning difficulties were mixed. Often one learner would be an inattentive due to the handwriting or the material, the teacher would always try to correct it and go on with the lesson, but would be charged at the end of the lesson. He blamed the learner and did not try to immediately correct the situation, he continued with the work. In front of the class, he told the learner that he made a mistake. The learner had a strongly built nature, he liked to blame the teacher. The learner guided his staff and sent out the student for the wrong behavior. He was about 100 cm tall at the age of 10. What would you, as a teacher, do as a result of the case?

Answer

He should not blame the learner but try to help him.

He should correct the learner immediately and not let him continue.

He should try to correct the learner immediately.

None of the above (A, B, C) is correct.

Q45 (4 out of 100%) Which of the following pieces of advice would you suggest for the effectiveness of the team meeting?

Answer

The most basic matters should only be raised in the first meeting.

Team members are encouraged and asked to speak about their own subject in detail in the meeting.

The agenda for the meeting should include a general overview of each of the strategic issues.

Agenda should be developed based on the role of each team member in the meeting.
